RELEASE NOTES SUMMARY

These release notes detail the product improvements and new features included in the December 7th release.

Resolved Issues (formerly improvement report)

- No issues were updated in this release.

Updates and New Features

- **New Career and Education Planning Curriculums:** Two new career and education planning curriculum, designed for New York middle and high schools, are now available for New York educators to turn on for their schools.

1. RESOLVED ISSUES

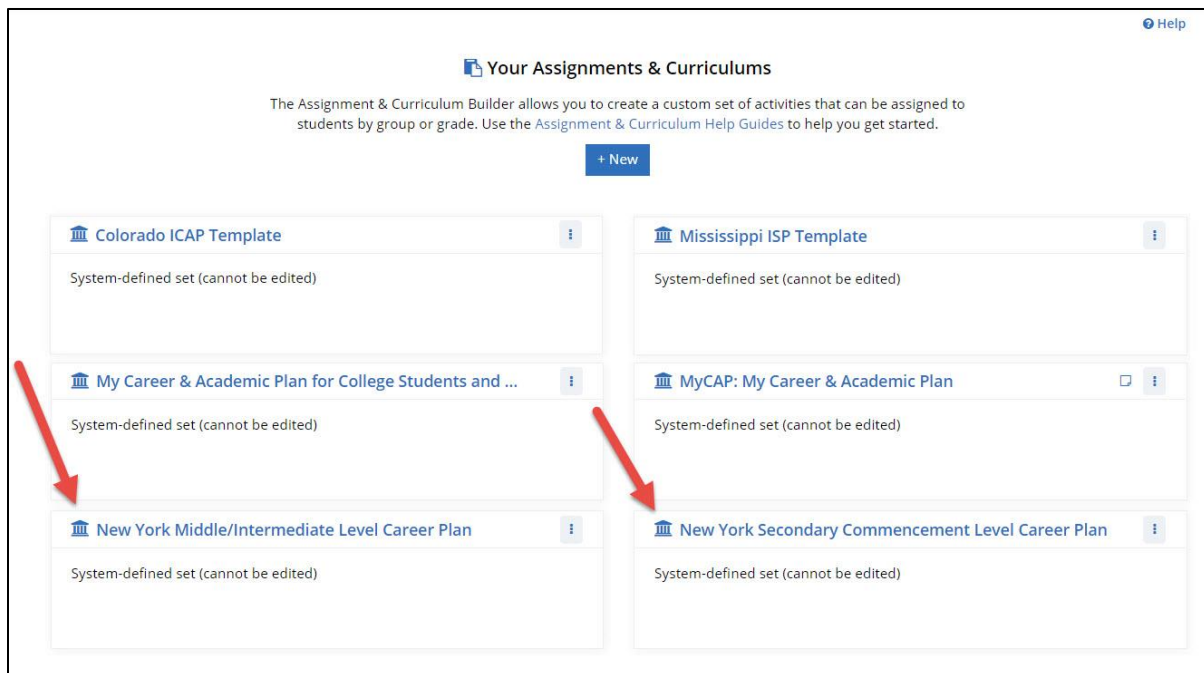

This table summarizes the resolved issues included in the December 7th release.

	Problem	Improvement
	There are no resolved issues in this release.	

2. NEW CAREER AND EDUCATION PLANNING CURRICULUM

Two new career and education planning curriculums, designed for New York middle and high schools, are now available for New York educators to turn on for their schools. The curriculums are called New York Middle/Intermediate Level Career Plan and New York Secondary Commencement Level Career Plan.

District and site administrators can find the curriculum in the list of available curriculums in the Assignment & Curriculum Builder under the Administration tab.

New York Career Plan curriculums

Each New York curriculum is adapted from the NYSED.gov's CTE page templates which contain some tables that are unique to each template. Each version of XAP's NY Career Plan curriculum aligns with templates as closely as possible. XAP met with staff in three New York districts, middle and high school counselors, to edit the plans so they would attempt to meet the spirit of the templates on the NYSED.gov site, and in most places the letter of it, too.

To implement the curriculums, duplicate the Career Plan, then edit the name of it, and any part of it you wish to change -- including instructions.

Once you are happy with the content, assign the curriculum to the appropriate grade level. To learn more about duplicating, editing, and assigning the NY Career Plan curriculums, see the [How to Use the Assignment & Curriculum Builder Guide](#) found in the Resources section of the Professional Center.

The New York Middle/Intermediate Level Career Plan curriculum is comprised of the following:

6th Grade

- Welcome Text
- 1. Section 1 Personal Data
 - a. This is Me activity
