RELEASE NOTES SUMMARY

These release notes detail the product improvements and new features expected to be included in the March 17, 2021 release.

Resolved Issues

1. In the Student Center, the Career Cluster pages were displaying "temporarily unavailable".
2. The course plans for Career Clusters were not displaying when requested in the Student Center.
3. The Get Recruited button was not displaying on school profiles.
4. When selecting Plan of Study for a student in an Assigned Curriculum report in the Professional Center, the student's Plan of Study was not displaying.
5. The "last updated on" date was not displaying for changes to Graduation Requirement in the School Course Planning tools (available only for administrators).
6. Some professional account holders were not able to see students'/clients' Career Cluster Survey results.
7. On occasion, students were unable to create accounts using the account creation feature.
8. The print version of a completed Practice Application was using an older style and formatting.
9. The social media links in the school profile for some institutions were not linking properly in the Student Center.
10. Students were creating accounts where their username or email address included an apostrophe which was causing problems for various messaging systems.
11. Batch-created accounts which included email addresses with apostrophes were causing problems with messaging and email features.
12. Students who had COPPA-restricted accounts then turned 13 could not add their first and last name (required) when requested by the system. They were then unable to access their accounts.

Enhanced & New Features

- There are no new or enhanced features in this release.

1. RESOLVED ISSUES

This table summarizes the product improvements included in the March 17, 2021 release.

	Problem	Improvement
1	**Student Center:** When selecting a Career Cluster page, users were getting the message "page temporarily unavailable". (80643)	The code was fixed so the pages now display properly.
2	**Student Center:** When selecting a Career Cluster's course plans from within a career profile, or confirming a plan within the Career Plan Builder, the course plan was not displaying (80610, 80646, 80694)	The code was fixed so the pages now display properly.
3	**Student Center:** The Get Recruited button was not appearing on school profiles. (79528)	The Get Recruited button now appears in the upper panel for schools that use the functionality.
4	**Professional Center:** When selecting Plan of Study for a student in an Assigned Curriculum report, the student's Plan of Study was not displaying. (80494)	When a professional opts to view a student's Plan of Study from within an Assigned Curriculum report, the student's completed Plan of Study now displays properly.
5	**Professional Center:** The "last updated on" date was not displaying for changes to Graduation Requirement in the School Course Planning tools (available only for administrators). (80228)	The "last updated on" message now displays appropriately.
6	**Professional Center:** Some professional account holders were not able to see students'/clients' Career Cluster Survey results. (80621)	The results now display for all appropriate professional account holders.
7	**Student Center:** On occasion, students were unable to create accounts using the account creation feature. (80679)	Occasionally during account creation, coding on the page was not responding appropriately. The code has now been fixed.
8	**Student Center:** The print version of a completed Practice Application was using an older style and formatting. (78940)	A new style was applied to the print version of the completed Practice Application.

	Problem	Improvement
9	**Student Center:** The social media links in the school profile for some institutions were not linking properly. (80578)	The links were fixed.
10	**Student Center:** Students were creating accounts where their username or email address included an apostrophe which was causing problems for various messaging systems. (80600)	The instructional messages on the account creation page were updated to reflect that apostrophes are not permitted.
11	**Professional Center:** Batch-created accounts which included email addresses with apostrophes were causing problems with messaging and email features. (80601)	The instructional text for batch-created accounts has been updated to reflect that apostrophes are not permitted.
12	**Student Center:** Students who had COPPA-restricted accounts then turned 13 could not add their first and last name (required) when requested by the system. They were then unable to access their accounts. (80281)	The system has been updated so the prompt to add their first and last name now properly saves the information to the student's account permitting them access.
