Release Notes Summary ..... 3

1. Resolved Issues ..... 4

## ***RELEASE NOTES SUMMARY***

These release notes detail the product improvements and new features expected to be included in the April 21, 2021 release.

### **Resolved Issues**

1. The option to select "This School Year" as a date range for the My Goals and Action Plans report was not appearing properly.
2. The Submit button appearing on the Activation Code submission page (when creating an account) was too large.
3. When a student navigates to Plan of Study, they should be able to choose from their saved plans but are instead seeing just their current (focus) course plan.
4. When a professional completed a Plan of Study on behalf of a student in the Professional Center, the activity was not marked as complete in the student's assigned curriculum.
5. A professional could not create a Plan on Study on behalf of a student in the Professional Center.
6. The default graduation requirements in Choices360 were out of date.

### **Enhanced & New Features**

There are no new or enhanced features in the April 21, 2021 release.

## 1. RESOLVED ISSUES

This table summarizes the product improvements included in the April 21, 2021 release.

	Problem	Improvement
1	<b>Professional Center:</b> The option to select “This School Year” as a date range for the My Goals and Action Plans report was not appearing properly. (80719)	The link to select “This School Year” was visible but not clickable. The code was fixed so this option is now available for selection.
2	<b>Student Center:</b> The Submit button appearing on the Activation Code submission page (when creating an account) was too large. (80747)	The button has been resized.
3	<b>Student Center:</b> When a student navigates to Plan of Study, they should be able to choose from their saved plans but are instead seeing just their current (focus) course plan. (80776)	A menu page was not being called up by the system. The system has now been fixed.
4	<b>Professional Center:</b> When a professional completed a Plan of Study on behalf of a student in the Professional Center, the activity was not marked as complete in the student’s assigned curriculum. (79667)	When a professional opts to complete a student’s Plan of Study, the student now sees that the activity is complete in their assigned curriculum.
5	<b>Professional Center:</b> Professionals could not create a Plan of Study on behalf of a student. (80741)	Professionals can now create and edit a student’s Plan of Study in the Professional Center.
6	<b>Professional &amp; Student Center:</b> The default graduation requirements were out of date. (80042)	The default graduation requirements have been updated. These requirements are automatically overwritten when a district or school implements their own requirements via the Professional Center.
