1. Resolved Issues 4

RELEASE NOTES SUMMARY

These release notes detail the product improvements and new features included in the February 23, 2022, release.

Resolved Issues

1. The styling (color and layout) of the content in the Career Plan Builder has been fixed.
2. Layout and design issues within the Focus Career Cluster activity have been resolved.
3. CareerOneStop has discontinued 20 career videos (such as Bridge and Lock Tender, Paperhanger) and these videos have been removed.
4. The “What are Goals?” video included in the My Goals and Action Plans activity has been updated.
5. The instructional text for assigned assessments was displaying incorrectly for the Career Key.
6. Minor accessibility issues such as global search missed during keyboard navigation, overlap when a webpage was being magnified, and contrast errors were corrected.

Enhanced & New Features

- No enhanced features were included in this release.

1. RESOLVED ISSUES

This table summarizes the product improvements included in the February 23, 2022, release.

	Problem	Improvement
1	The styling of the content in the Career Plan Builder requires updating as colors of some of the text and buttons are hard to read. (PPS-695)	The styling has been updated.
2	There were several layout and design issues within the Focus Career Cluster activity. (PPS-621, PPS-638)	The issues have been resolved.
3	CareerOneStop has discontinued 20 career videos (such as Bridge and Lock Tender, Paperhanger). (PPS-613)	The old videos have been removed from the site.
4	The "What are Goals?" video included in the My Goals and Action Plans activity has been superseded by a new version. (PPS-476)	The video was replaced.
5	The instructional text for assigned assessments was displaying incorrectly for the Career Key (PPS-577)	The text has been updated.
6	Minor accessibility issues were noted including the following issues: global search was skipped in keyboard navigation, overlap when a webpage was being magnified, and contrast errors. (PPS-527)	The issues were fixed.
