RELEASE NOTES SUMMARY

These release notes detail the product improvements and new features included in the October 26, 2022, release.

Resolved Issues

1. The exporting issue on the Work-Based Learning Experiences report has now been resolved.
2. District professionals using Firefox or Edge are now able to select/deselect the 'Hide This From Students?' Program of Study checkbox.
3. Resolved an issue where a district user was not able to go back to the district site from the Work-Based Learning module.
4. When a student completes the Survey activity as part of a curriculum, the blue bar will now change to green indicating the activity has been completed.
5. The issue where the Last School Year is displaying the incorrect date range on the My Goals & Action Plans Report has been resolved.
6. When approving a student's plan of study, 'This course plan has not yet been submitted for approval' will no longer be displayed.
7. When an annualized My Colleges & Applications activity is completed, the ribbon will now display the activity completion date.
8. Resolved an issue where the Sort Activities button was not displayed in Assignment & Curriculum at the school level.

Enhanced & New Features

- Enhancements have been made to the Work-Based Learning Experiences Activity to increase functionality and provide a more user-friendly workflow.
- The defaults for the Work-Based Learning Experiences report have been updated to include all students in middle and high school.
- When viewing a Career Cluster, The Buzz section has been moved beneath Pathways in this Cluster.
- When exporting the My Goals & Action Plans report, a modal appears alerting the user that it could take up to 30 minutes to receive the export file.

1. RESOLVED ISSUES

This table summarizes the product improvements included in the October 26, 2022, release.

	Problem	Improvement
1	When a user attempts to export the Work-Based Learning Experiences Report, the report fails to export. (PPS-2436)	The Work-Based Learning Experiences Report will now export when the user selects the Export button.
	District professionals using the Firefox or Edge browsers are not able to select/deselect the 'Hide This From Students?' Program of Study checkbox. (PPS-2689)	District professionals using the Firefox or Edge browsers are now able to select/deselect the 'Hide This From Students?' Program of Study checkbox.
2	When a district user attempts to go to the district while on the Work-Based Learning tab, an error message is displayed. (PPS-2541)	A district user will now be able to go back to the district site from the Work-Based Learning tab.
	When the student completes the Survey activity in Assignment & Curriculum, the blue banner does not change to green to indicate the activity is complete. (PPS-2518, PPS-953 & PPS-952)	The blue bar will now change to green when a student completes the Survey activity in Assignment & Curriculum.
	When a professional user selects the Last School Year, the My Goals & Action Plans Report is showing the incorrect date range. (PPS-2454)	The correct date range will now display when Last School Year is selected when generating the My Goals & Action Plans Report.
	When a plan of study has been approved by a professional the 'This course plan has not yet been submitted for approval' is displayed. (PPS-1383)	The 'This course plan has not yet been submitted for approval' will no longer display when a plan of student has been approved.
	When My Colleges & Applications annualized activity is completed, the Ribbon fails to show the activity completion date. (PPS-657)	When My Colleges & Applications annualized activity is completed, the Ribbon will now show the activity completion date.

	Problem	Improvement
	The Sort Activities button does not display in the Assignment & Curriculum Builder at the school level. (PPS-643)	The Sort Activities button will now display in Assignment & Curriculum at the school level.

2. WORK-BASED LEARNING EXPERIENCE ACTIVITY

An enhancement has been made to the Work-Based Learning Experience Activity for students, professionals, and parents. The enhancement focuses on additional functionality and delivering an improved user experience.

Students will no longer need to edit an engagement experience to enter hours. They can select **Log Hours** from the menu on the activity tile. This functionality is also available to professional and parent users. A professional user can view and update student hours, while a parent user can only view them.

Log Hours modal

3. WORK-BASED LEARNING EXPERIENCES REPORT

The Work-Based Learning Experiences report will now default to all grades. When 'All Grades' is selected, only students currently in middle and high school will be found in the report results.

Work-Based Learning Experiences Report

The Work-Based Learning Experiences Report shows In Progress and Complete Work-Based Learning Experiences for your students in grade 12 during the past 6 school years. The report can be updated by entering additional criteria in the search fields.

3. CAREER CLUSTERS

When viewing a Career Cluster, **The Buzz** section has been moved beneath the **Pathways in this Cluster** section.

Employment Outlook

Careers in this cluster fall into the **construction and extraction** and the **architecture and engineering** occupational groups used by the Bureau of Labor Statistics for occupational projections.

Construction and Extraction

Employment in construction and extraction occupations is projected to grow 6 percent from 2020 to 2030, about as fast as the average for all occupations, and gain about 400,000 new jobs. Overall growth in the economy and population will increase demand for new buildings, roads, and other structures, which will create new jobs in construction and extraction occupations.

Architecture and Engineering

Employment in architecture and engineering occupations is projected to grow 6 percent from 2020 to 2030, about as fast as the average for all occupations. About 146,000 new jobs are projected to be added. Most of the projected job growth in this group is in the engineer occupations, as their services will be in demand in various areas such as rebuilding of infrastructure, renewable energy, oil and gas extraction, and robotics.

Pathways in this Cluster

Each pathway has more specific careers, programs and course plans:
