## 1. RESOLVED ISSUES

This table summarizes the product improvements included in the April 5<sup>th</sup>, 2023, release.

	<b>Problem</b>	<b>Improvement</b>
1	When prompted for missing required account information upon initial login, the entered information is not always saving correctly. (PPS-3098, PPS-3099, PPS-3100, PPS-3103, PPS-3104)	When entering missing required information, a change was made so that the information will be saved correctly.
2	When browsing for careers/colleges, selecting print/email/pdf, the results show the list of careers/colleges, but does not include all pertinent data for each career/college. (PPS-2947)	When browsing careers/colleges, selecting print/email/pdf will now generate a list of careers/colleges that includes pertinent data.
3	When creating or updating an account password, the Password field accepts 12 characters, but the Confirm Password field allows more than 12 characters to be entered. (PPS-3858)	The Confirm Password field was updated to only allow 12 characters.
4	The export function on the Resume Builder is not generating a pdf of a resume. (PPS-3872)	The export function in the Resume Builder was updated so that a resume can be exported as a pdf.
5	The file upload modals on Your Profile > Career Planning and College Planning are missing the title. (PPS-4156)	The font on the file upload modals on Your Profile > Career Planning and College Planning was changed so the modal title is displayed.
