RELEASE NOTES SUMMARY

These release notes detail the product improvements and new features included in the April 5th, 2023, release.

Resolved Issues

1. When entering missing required account information upon initial login, the information will now save correctly.
2. When browsing careers/colleges, selecting print/email/pdf will now generate a list of careers/colleges with pertinent data.
3. The Confirm Password field was updated to only allow 12 characters.
4. The export function in the Resume Builder was updated so a resume can once again be exported as a pdf.
5. The font of the print/email/pdf option was changed so it is viewable when searching for postsecondary schools.

Enhanced & New Features

- No new enhancements were added.

1. RESOLVED ISSUES

This table summarizes the product improvements included in the April 5th, 2023, release.

	Problem	Improvement
1	When prompted for missing required account information upon initial login, the entered information is not always saving correctly. (PPS-3098, PPS-3099, PPS-3100, PPS-3103, PPS-3104)	When entering missing required information, a change was made so that the information will be saved correctly.
2	When browsing for careers/colleges, selecting print/email/pdf, the results show the list of careers/colleges, but does not include all pertinent data for each career/college. (PPS-2947)	When browsing careers/colleges, selecting print/email/pdf will now generate a list of careers/colleges that includes pertinent data.
3	When creating or updating an account password, the Password field accepts 12 characters, but the Confirm Password field allows more than 12 characters to be entered. (PPS-3858)	The Confirm Password field was updated to only allow 12 characters.
4	The export function on the Resume Builder is not generating a pdf of a resume. (PPS-3872)	The export function in the Resume Builder was updated so that a resume can be exported as a pdf.
5	The print/email/pdf option is not viewable when searching for postsecondary schools on College Planning > Explore Schools. (PPS-3938)	The font of the print/email/pdf option was changed so it is viewable when searching for postsecondary schools.
