3. COMPASS PROFILE UPDATED

The newest release of Compass includes features to help students more easily update their profiles and search for opportunities. These features include:

- The **new Compass home page** offers improved navigation that corresponds to the mobile app. Students can now view their profile, results, opportunities, and activity from the home page and the top navigation.
- The **new notification features** on the home page include a profile progress graphic and alerts for new matched opportunities and activities awaiting action.
- The **new employer page** enables students to learn more about an employer and all of its related opportunities from one location, including work-based learning and Career Profiles. This provides an additional way to browse opportunities, especially if students are interested in working for particular employers.
- **Email notifications of when an employer accepts or rejects a work-based learning opportunity** will now be sent to school professionals, so they know when an offer is made.

Golden Path has also published a new flyer for students about scholarships. The flyer can be found in the RUPrepare.ND.gov resources section under the Compass tab, or you can access it here: https://content.xap.com/media/49962/sponsorship_flyer_-_school_professionals_nd.pdf
