

Key Enhancements

April 10, 2025, Release

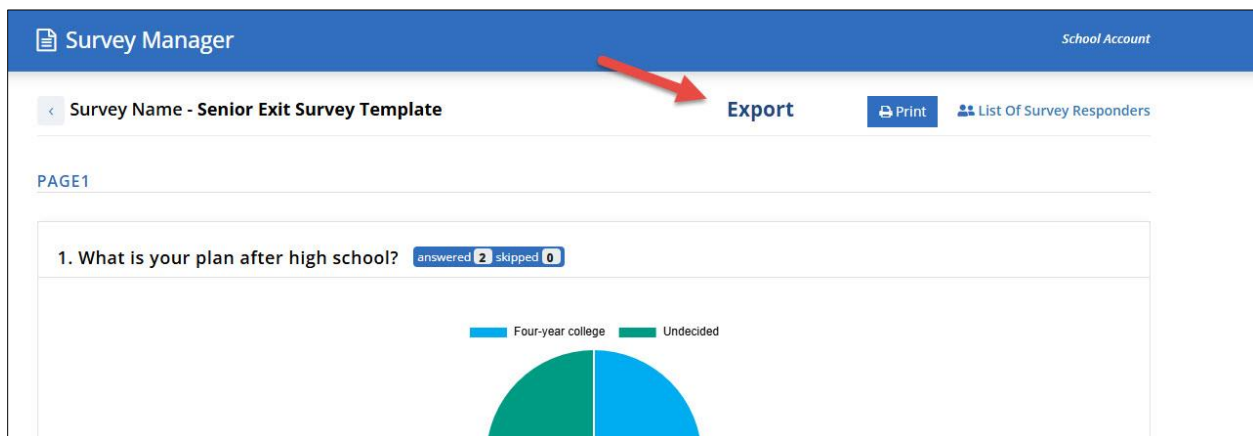

1. Export Survey Results to XLSX Format

Exporting student survey results in xlsx format provides educators several practical advantages for analysis and reporting.

- **Review all student responses** in a single, organized spreadsheet.
- Easily **share** survey results with colleagues, administrators, or stakeholders.
- Combine multiple survey exports to monitor trends and track changes in student responses over time.
- Create customized reports by organizing, filtering, and highlighting key insights within the data.

In addition to survey responses, the export includes the following student data points: First name, last name, username, date of birth, student graduation year, and student number.

Data Privacy Note – please ensure the survey response file is handled in accordance with your institution’s data privacy policies.

Export link now available on survey results page

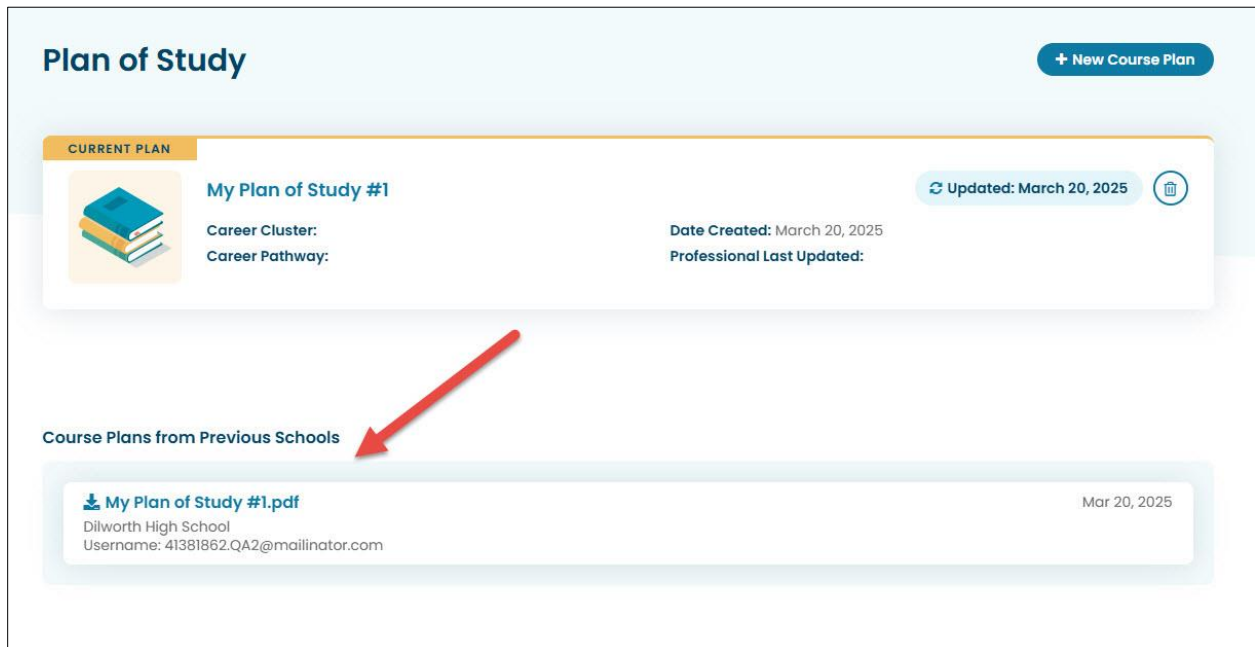

2. Merged Student Accounts Now Retain Course Plan History!

Good news! Students whose accounts have been merged will now **retain access to their full course plan history**. This new feature ensures a **seamless experience** for students and educators by preserving important academic planning data—even after accounts have been consolidated.

Key Benefits:

- **Continuity:** Students can view their **previous course plans**, making it easier to stay on track with academic goals.
- **Clarity:** No more confusion or missing information when logging into a newly merged account.
- **Support:** Educators and counselors can provide **better guidance** with complete historical data at their fingertips.
- **Efficiency:** Reduces time spent re-entering or reconstructing course plans, allowing for a more streamlined advising process.

This update enhances transparency and helps students make informed decisions about their education—no matter how their accounts evolve.

Students can download PDFs of course plans associated with previous schools

Bug Fixes & Improvements

- **Personal Values & Priorities** – Refreshed the design
- **Personal Management Style** – Updated the look and feel of the activity
- **General Workplace Skills** – Refreshed the visual design and user interface of the activity.
- **Entrepreneurial Checklist** – Enhanced the activity’s layout and overall user experience

- **Directions After High School** – Content updates
- **Survey Answers** – Missing labels restored
