

Key Enhancements

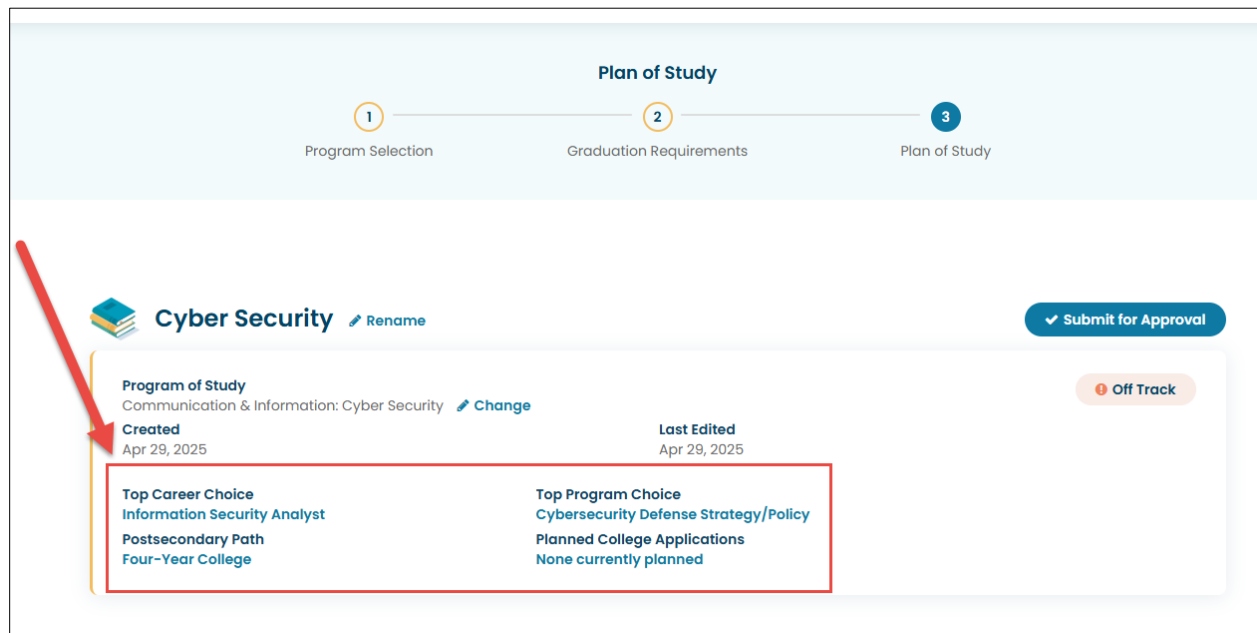

May 8, 2025, Release

1. New: Key Career, Program, Path, and College Data in Plan of Study

We've added important career, program, path, and college information to the Plan of Study! This helps educators, students, and parents see how course choices fit into long-term goals. It also supports some states' ILP sign-off requirements for future plans.

Benefits

- **Clearer Course Planning:** Students can better understand how their course selections align with future career and college goals.
- **Easier Decision-Making:** Students and parents can make more informed decisions about their academic path with added context.
- **Improved Guidance for Educators:** Educators can easily track students' academic trajectories, enabling more effective counseling.
- **Better Long-Term Planning:** Students gain a clearer view of their educational journey, from high school to their future careers or college.

New career, major, path, and college data added to Plan of Study

Bug Fixes & Improvements

- **Employment Experiences** – Fixed issue with comments
- **My Colleges & Applications** – Fixed issue with comments
