

Key Enhancements

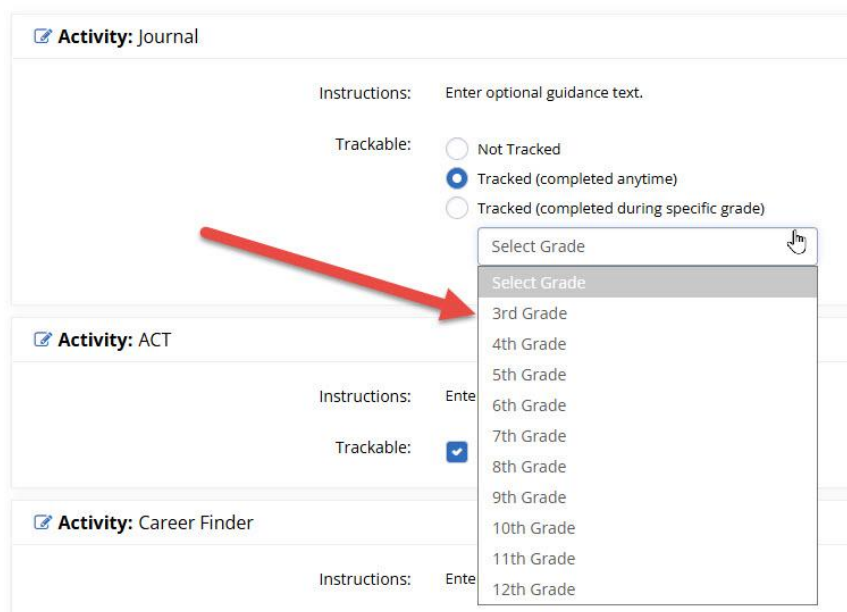

January 22, 2026, Release

1. Journal Activity Updates

We've made several improvements to make the Journal activity easier to use and track, especially for younger students.

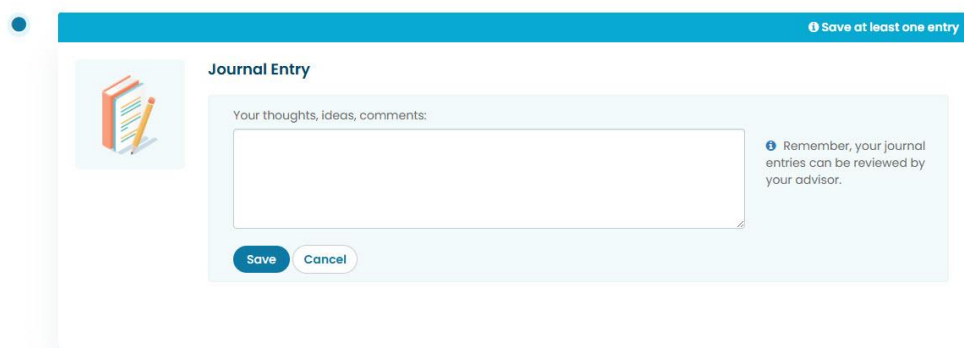

What's New

- The Journal activity can now be assigned to students in grades 3, 4, and 5

The screenshot shows the configuration interface for the Journal activity. A red arrow points to a dropdown menu labeled "Select Grade" which is open, showing a list of grades from 3rd to 12th. The "Trackable" section has three radio buttons: "Not Tracked", "Tracked (completed anytime)" (which is selected), and "Tracked (completed during specific grade)". Below this, there are three activity cards: "Activity: Journal", "Activity: ACT", and "Activity: Career Finder". Each card has an "Instructions" field and a "Trackable" section with a checkbox.

- New guidance text appears when the Journal activity was completed in an earlier grade
- Educators can track completion of the Journal for students in grades 3, 4, and 5
- Historical data has been updated so tracking by grade remains accurate.
- The Journal is easier for students to use — bigger writing space, clearer messages, and simple edit-only controls.

The screenshot shows the "Journal Entry" form. At the top, there is a blue bar with the text "Save at least one entry". Below this, there is a section titled "Journal Entry" with a pencil icon. The main area is labeled "Your thoughts, Ideas, comments:" and contains a large text input field. To the right of the input field, there is a note: "Remember, your journal entries can be reviewed by your advisor." At the bottom of the form, there are two buttons: "Save" and "Cancel".

Bug Fixes & Improvements

- **Batch Account Creation** – The default text at the top of the information sheets has been updated.
