

Key Enhancements

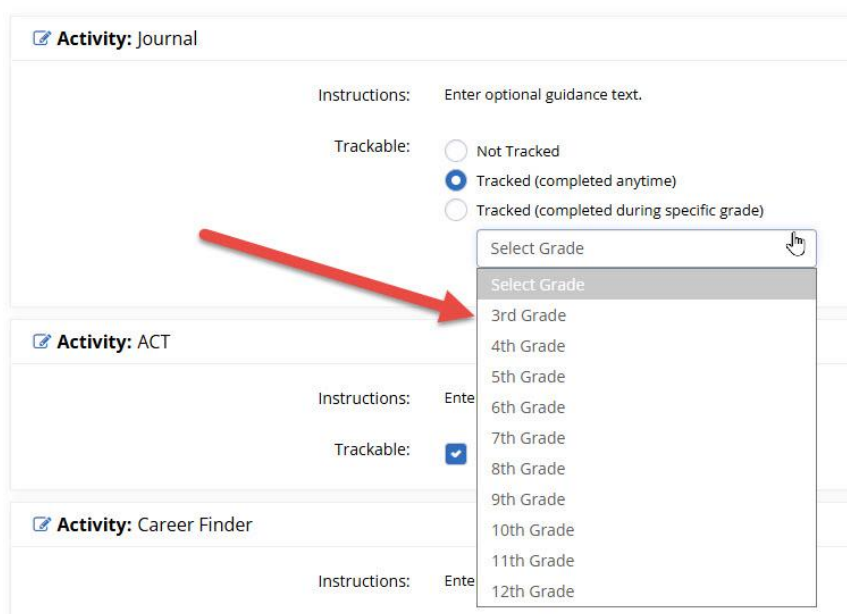

January 22, 2026, Release

1. Journal Activity Updates

We've made several improvements to make the Journal activity easier to use and track, especially for younger students.

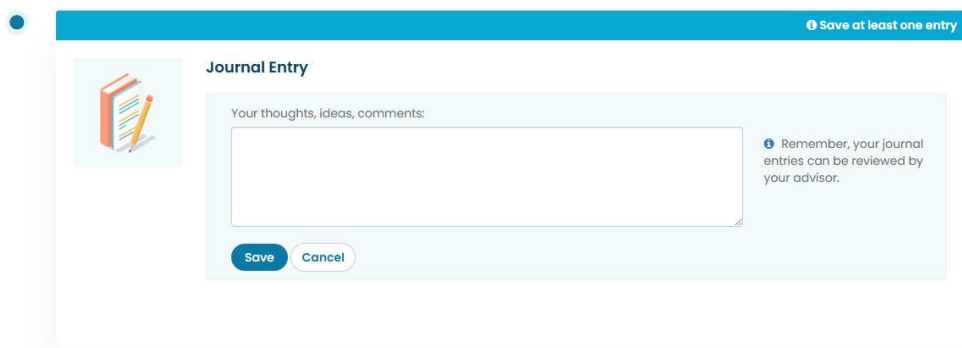

What's New

- The Journal activity can now be assigned to students in grades 3, 4, and 5

The screenshot displays the configuration interface for the 'Journal' activity. It includes fields for 'Instructions' and 'Trackable' options. A red arrow points to a 'Select Grade' dropdown menu that is open, showing a list of grades from 3rd to 12th. The 'Trackable' section has three radio buttons: 'Not Tracked', 'Tracked (completed anytime)' (which is selected), and 'Tracked (completed during specific grade)'. Below this, there are three activity cards: 'Activity: Journal', 'Activity: ACT', and 'Activity: Career Finder', each with its own 'Instructions' and 'Trackable' settings.

- New guidance text appears when the Journal activity was completed in an earlier grade
- Educators can track completion of the Journal for students in grades 3, 4, and 5
- Historical data has been updated so tracking by grade remains accurate.
- The Journal is easier for students to use — bigger writing space, clearer messages, and simple edit-only controls.

The screenshot shows the 'Journal Entry' form for students. It features a blue header bar with the text 'Save at least one entry'. Below the header, there is a section titled 'Journal Entry' with a sub-header 'Your thoughts, Ideas, comments:'. A large text area is provided for the student's entry. To the right of the text area, there is a note: 'Remember, your journal entries can be reviewed by your advisor.' At the bottom of the form, there are 'Save' and 'Cancel' buttons.

Bug Fixes & Improvements

- **Batch Account Creation** – The default text at the top of the information sheets has been updated.
