

# Key Enhancements

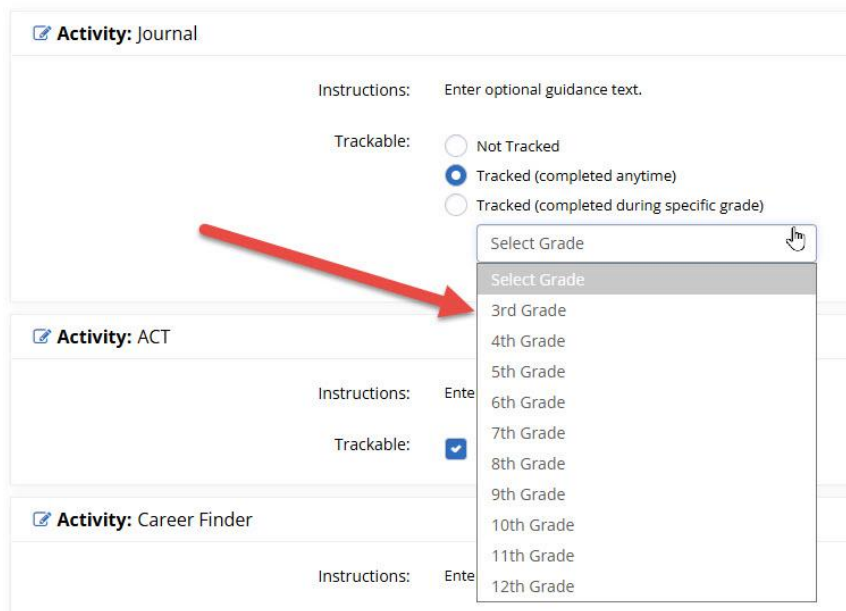

January 22, 2026, Release

## 1. Journal Activity Updates

We've made several improvements to make the Journal activity easier to use and track, especially for younger students.

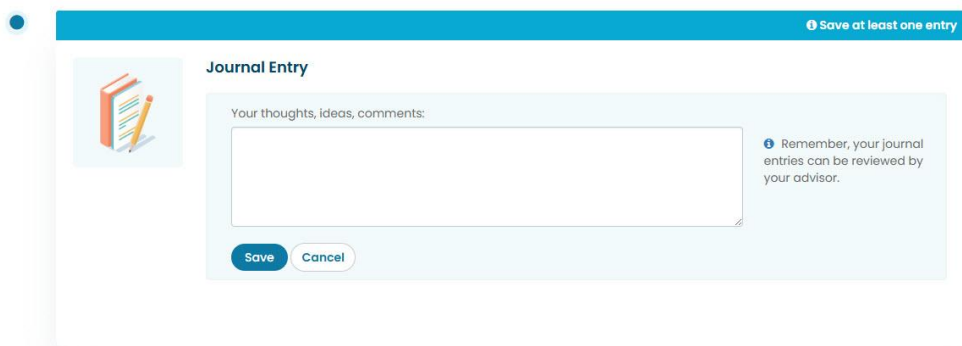

### What's New

- The Journal activity can now be assigned to students in grades 3, 4, and 5

The screenshot shows the 'Activity: Journal' configuration form. It includes fields for 'Instructions' (with placeholder text 'Enter optional guidance text.'), 'Trackable' (with radio buttons for 'Not Tracked', 'Tracked (completed anytime)', and 'Tracked (completed during specific grade)'), and a 'Select Grade' dropdown menu. A red arrow points to the 'Select Grade' dropdown, which is open and shows a list of grades from '3rd Grade' to '12th Grade'. Below the 'Journal' form, there are partial views of 'Activity: ACT' and 'Activity: Career Finder' forms.

- New guidance text appears when the Journal activity was completed in an earlier grade
- Educators can track completion of the Journal for students in grades 3, 4, and 5
- Historical data has been updated so tracking by grade remains accurate.
- The Journal is easier for students to use — bigger writing space, clearer messages, and simple edit-only controls.

The screenshot shows the 'Journal Entry' form for students. It has a blue header bar with the text 'Save at least one entry'. The form includes a 'Journal Entry' title, a 'Your thoughts, Ideas, comments:' label, a large text input area, and 'Save' and 'Cancel' buttons. A note on the right side states: 'Remember, your journal entries can be reviewed by your advisor.'

### *Bug Fixes & Improvements*

- **Batch Account Creation** – The default text at the top of the information sheets has been updated.
